KEY NEWS OF QATAR

- **Outward remittances hit QAR 12.9 bn in Q1**

Qatar's workers' remittances rose 21.7% year-on-year to QAR 12.9 bn in Q1 2026, up from QAR 10.6 bn a year earlier and 7.8% from the previous quarter, reflecting sustained growth in outward transfers by the country's large expatriate workforce. The increase highlights the importance of remittances in Qatar's balance of payments and their role in supporting households in labour-supplying countries, while strong growth in digital payment activity is making transfers faster and more accessible. QCB data showed instant-payment transactions nearly tripled to QAR 5.96 bn in April 2026, while bank-account transfers more than doubled to QAR 83.28 bn, supporting the broader expansion of digital financial services and remittance flows.

- **Qatar's NDS3 reforms, infrastructure push drive major global business ranking gains**

Qatar strengthened its position as a competitive regional business hub in 2025 through regulatory reforms, infrastructure investment and initiatives under NDS3, ranking first globally for general infrastructure and fourth for ICT development, while also improving its talent attraction and quality-of-life rankings. Invest Qatar launched a USD 1 bn incentive programme, streamlined company registration and investment procedures, reduced fees and introduced new visa categories for investors and skilled professionals. The agency also expanded its global presence, investor outreach and digital services, attracting new international partners and strengthening ties with foreign investment agencies. These measures helped support 373 new FDI projects worth USD 3.4 bn in capital expenditure and created 15,051 jobs, reinforcing Qatar's diversification and investment-attraction efforts.

- **QIIB wins 2 Global Business Magazine awards for innovation, mobile banking**

Qatar International Islamic Bank (QIIB) received two Global Business Magazine Awards 2026 for Mobile Banking Experience Qatar and Excellence in Product Innovation Islamic Finance, recognising its progress in digital transformation and Shariah-compliant banking solutions. The awards highlighted QIIB's secure and user-friendly mobile banking platform, as well as its ability to develop innovative financing products that meet evolving customer needs while maintaining strong governance and risk management. The recognition supports QIIB's strategy of investing in technology, fintech solutions and digital channels to enhance customer convenience and strengthen its competitiveness in Qatar's Islamic banking market.

KEY NEWS OF SAUDI ARABIA

- **Saudi AI tool adoption more than doubles to 45.2%**

Saudi Arabia's adoption of artificial intelligence accelerated sharply in 2025, with the share of Internet users using AI tools more than doubling to 45.2%, led by younger users aged 20–29 at 55.7%, while female adoption at 52.8% exceeded male usage at 39.4%. AI was primarily used for information searches (80.8%), followed by idea generation (40.1%), education (37.7%) and creating images, videos or presentations (25.7%), while 17.3% used it for work-related tasks. The Kingdom's strong digital infrastructure is supporting this growth, with Internet penetration reaching 99.6%, average monthly mobile-data consumption at 53GB per user and median mobile download speeds of 216 Mbps. AI adoption is also expanding among businesses, with 33.1% of Saudi establishments using AI in 2025, led by information and communications, financial services and education. The acceleration aligns with Saudi Arabia's National Strategy for Data and AI and Vision 2030, which target global AI leadership, 20,000+ specialists, SAR 75 bn in investment and more than 300 AI startups by 2030, while the designation of 2026 as the Year of Artificial Intelligence and PIF's launch of Humain further underscore the Kingdom's push to build a comprehensive AI ecosystem spanning data centres, cloud infrastructure, models and applications.

- **Saudi Arabia advances multinational maritime defense alliance initiative**

Saudi Arabia hosted an international meeting with military chiefs and representatives from 43 countries and the EU to advance its proposal for a multinational maritime defense alliance aimed at protecting international shipping, safeguarding freedom of navigation and countering threats to global trade. Discussions focused on rising attacks against commercial vessels, energy tankers and critical maritime infrastructure, as well as the proposed alliance's charter, governance, command-and-control structure, operating mechanisms and implementation plans covering the Bab al-Mandab Strait, Red Sea and Gulf of Aden. Saudi Arabia is set to serve as the founding nation, lead the initiative and host its headquarters, while participating countries agreed to continue technical and military planning and complete domestic approval processes ahead of the formal launch. A joint statement endorsed by 14 countries, including Saudi Arabia, Qatar, Kuwait, Bahrain, Pakistan, Türkiye, Egypt and Somalia, backed the initiative, with Riyadh emphasizing that the alliance will remain open to other countries sharing its objectives and will promote collective responsibility for securing strategic maritime routes and strengthening regional and global stability.

KEY NEWS OF UAE

- **Dubai Chambers continues to bolster partnerships with Chinese business community**

Dubai Chambers is preparing to host the Dubai Business Forum – China in Shenzhen on October 14, 2026, aimed at deepening trade, investment and business ties between Dubai and China, with Dubai increasingly serving as a regional launchpad for Chinese technology companies. The emirate's advanced infrastructure, flexible regulatory environment, strong public-private collaboration and connectivity across the Middle East, Africa and Asia are attracting firms such as ARIDGE, Keeta Drone and PingPong. ARIDGE has chosen Dubai as a base for expanding its advanced air-mobility business, while Keeta Drone is developing commercial drone-delivery operations supported by Dubai's regulatory framework and airspace access. Meanwhile, PingPong is using Dubai as a financial hub to facilitate cross-border payments between Chinese businesses and markets across the Middle East and Africa. Together, these examples highlight Dubai's ability to help international technology firms test, commercialise and scale innovative solutions while providing access to customers, investors, regulators and regional trade corridors.

OTHER REGIONAL AND GLOBAL NEWS

- **Oil steady as Iran tempers hopes of swift Hormuz reopening**

Oil prices were little changed on Monday, with Brent at USD 83.74 and WTI at USD 78.21 a barrel, as optimism over a potential reopening of the Strait of Hormuz was offset by Iran's demands for US concessions and compensation. Both benchmarks had fallen more than 7% last week on hopes of a deal, but renewed geopolitical risks, including a reported Houthi attack on Saudi Aramco's Jazan refinery and attacks on vessels in the Strait, supported prices. Markets remain focused on negotiations, with progress toward reopening the waterway likely to pressure prices lower, while a breakdown in talks or further supply disruptions could revive the geopolitical risk premium.

- **Gold inches down from seven-week high, US inflation data in focus**

Gold edged 0.2% lower to USD 4,332.68 per ounce on Monday after hitting a seven-week high, pressured by a stronger dollar and ongoing US-Iran tensions that are keeping oil prices and inflation risks elevated. Markets are now focused on US CPI and PPI data for clues on the Fed's rate path, with expectations of a September rate hike falling to 44% from 57% after weak July jobs data. A softer-than-expected CPI could further reduce rate-hike expectations, weaken the dollar and support gold. Silver rose 0.6%, while platinum and palladium declined 0.5% and 1.5%, respectively.

- **South Korea, US to begin exercises next week to bolster readiness against North's threats**

South Korea and the US will begin their annual Ulchi Freedom Shield military exercise next week, with about 18,000 South Korean troops participating in the 11-day drill to strengthen readiness against North Korean threats. The exercise will incorporate lessons from recent conflicts, including North Korea's deployment of troops to support Russia's war in Ukraine, and will feature live, virtual, constructive and field-based training. The drills come shortly after North Korea resumed ballistic missile testing, launching a short-range missile in violation of UN Security Council resolutions. While Seoul and Washington describe the exercises as defensive, Pyongyang has historically condemned them as invasion preparations and responded with weapons tests. Concerns have also grown that North Korea's military cooperation with Russia could provide Pyongyang with battlefield experience and access to sensitive technologies that may further enhance its nuclear and missile capabilities.

FX Commentary

The US dollar remained near a two-month low on Monday after weak US jobs data reduced expectations for a September Fed rate hike, with the dollar index around 99.6. The euro strengthened to around USD 1.16, while sterling held near USD 1.35, both close to multi-week highs. The yen weakened, with USD/JPY moving around 158.91, as it pared some intervention-driven gains, although speculative bearish yen positions fell sharply. The Australian and New Zealand dollars slipped slightly to around USD 0.71 and USD 0.59, respectively, ahead of the RBA decision, while the Chinese yuan remained firm near 6.74 per dollar, close to a 3½-year high.
